### ABOUT our student residence in Malaga

Our boutique residence is located in the city's best neighborhood, right in the city center and across the street of our Enforex Spanish language school. It will take you only few steps to get to classes. The building has been completely renovated with all the modern comforts and lots of natural light.

The residence has a capacity of 44 people living together, lovely rooms, all with flat-screen TV and WiFi. You will have access to a fully equipped kitchen for all students to use, but meals will also be provided in the dining area for those who have selected the breakfast, half-board, or full-board catering options. Get together in the common living room and make friends from all over the world by socializing with other students.

With its location downtown, you'll have vibrant neighborhoods, cultural spaces, the river, and the beach close at hand. If you want to explore other parts of town, there's a bus stop just in front of the residence.
